# **CURB APPROACHES**

Proposed Ordinance Will Eliminate Grade Perils to Pedestrians

The establishment of regulations covering the entire city for the ad-Justment of curbs leading to garages and gusoline stations is being studied by the Committee on City Plan and Public Improvements and by the chief engineer of the Board of Estimate, and the recommendations will be embodied in a report.

At present there are no uniform regulations, each Borough President giving permits as he sees fit for dropping or cutting away curbs, with the result that there is a wide diveralty of curbs, some of which have such a gradient as to be a danger to pedestrians, while others are so awkwardly arranged as to make difficult motor vehicle entry into garages.

A resolution has been introduced in the Board of Aldermen by the Committee on Public Thoroughfares as an

amenament to the Code of Ordinances providing that a Borough President shall have power to order the discontinuance of any existing curb passage as he may consider dangerous to pedestrians and to compel, within ten days, the restoration of the sidewalk to its original condition.

The resolution further prohibits any Borough President from granting any permit to lower the curb or change the grade of any sidewalk when, in his opinion, the actual or intended use of such a passageway would endanger

SAYS HE POISONED WIFE Put Fatal Dose ir Her Medicine.

Fired House, Police Say.

AUSTIN, Minn., Dec. 29.-Clarence Hamblen, of Ceylon, Minn., arrested in Stockton, Cal., on a charge of green was confessed here that he poisoned his wife on her sick bed, at their home to Ceylon, Oct. 9, according to a statement issued to-day by Sheriff W. S. Carver. According to Sheriff Carver, Hamblen admitted he placed poison in her mediine. Hamblen was arrested on the complaint from the Minnesota Fire Marshal's office, which charged he had set fire to his house to collect the insurance, according to Sheriff Carver. Hambien also admitted he fired the

PRESSMEN WON'T STRIKE.

ote to Accept \$6-a-Week Increase-Had Asked 87.

A strike of more than 2,000 pressmen in book and job shops, members of Printing Pressmen's Union, No. 51, was averted last night when 1,000 members of that union, at a meeting in Beethoven Hall, No. 210 Fifth Street, unanimously voted to accept the \$6 a week increase offered by the Employing Printers' Association. The presemen are now reselving \$44 a week and asked for \$51. which they received in 1920.

Earlier a moeting was hold at the Hotel Astor by committees representing the pressmen and the employers, at which time the offer of the employers was agreed on, subject to a vote of the membership at the evening meeting. The new agreement will take effect the first fiscal working week of Janu-ary, 1933, and run until Sept. 1.

VEST POCKET TYPEWRITER.

Invention Weighing One Ounce Has Wheel With Rubber Letters.

CAMBRIDGE, Mass., Dec. 29 .- A typewriter weighing one ounce and fitting in a vest pocket was brought by Dr. H. E. Wetherell of Philadelphia to the meetings of the American Association for the Advancement of Science He devised it for his own use.

Held between the fingers and th paper, the machine writes by means of The Appellate Division yesterday affirmed without opinion the decree of
the Surrogate's Court that the \$500,000
given to the American Bible Society by
Mrs. Russell Sage during her lifetime
was an advance on her legacy of about
\$1,250,000 in her will. The Bible Soclety contended it was a separate gift.

EE but it's great. Ma makes me a cake whenever I want one now. She says it's good for me, better'n candy, and I can have all I want. It only takes two minutes.

There's a big mill in the heart of the Maryland farmlands. It is owned by the Gambrill Manufacturing Company. They've been millers since the days of the Revolution and they know how.

Four years ago they started scientists to work out a flour that would make cake haking easy.

#### Two-minute cake flour

Their years of effort save Mother hours of labor. Everything that is needed to make a perfect cake is in Pat-A-Cake. The milk,

eggs, butter and other materials are received fresh at the mill every day. Put in powder form they are combined into the perfect recipe for cake.

NOTE: Every package of PAT-A-CAKE

quality and the scientific mixing are your assurance against failure.

#### It's all in Pat-A-Cakeyou just add water

A cup of water stirred into a package of Pat-A-Cake, two minutes to bake. That's all. No more dirt and worry in the kitchen. No more hot days over the stove. No trouble at all and no chance of a cake that falls or is soggy.

It is cheaper, for the materials in a 25c package of Pat-A-Cake would cost 57c. It is safer.

### Investigated by specialists

A discovery as startling as this naturally interested the experts. Good Housekeeping Institute, the Modern Priscilla Proving Plant, the New York Tribune, all gave it thorough tests. It came out with a certificate of merit from each and a record of 100% for flavor, economy, and labor saving.

Every boy who tastes it agrees with them and the children aren't alone. Pat-A-Cake brings the best of the farm to your kitchen and drives out worry, mess and failure.
